Knowledge is power!

“Greater security for you”

OBTAIN STATE-OF-THE-ART INFORMATION

Comprehensive and up-to-date information allows our customers to focus on real prospects, and to develop business relationships based on both trust and facts. Coface Central Europe offers fully automated monitoring and information processing services.

Clients are able to select companies and reporting parameters to meet their specific needs, and are automatically informed of changes. This supports the implementation of pro-active measures for fast response to critical events. Our information helps our clients control the risk associated with particular customers or transactions, and supports credit decisions.

Our clients can base crucial decisions on information collected by experts over more than a decade, and this saves time and money.

Understanding risk allows our clients to guard business and profit margins from the potential loss associated with fraud, failure, or delayed payments.
